Abstract

The abstract is a brief and comprehensive summary of the paper in one paragraph. It should be 150-250 words. The abstract should not contain any undefined abbreviations and citations. The abstract should be written in one paragraph only and the first sentence is not indented.

Keywords: There shall be 5 keywords arranged alphabetically which can be used for indexing purposes.

Introduction

This section lays the groundwork for why the paper is important. The part includes the context or background of the study that provides a brief and balanced review of the pertinent published literatures on the subject of interest. This section summarizes current understanding of the problem investigated, discusses the significance of the study, the purpose or objectives of the study, rationale and approach.

Please use 12-point Times New Roman font with 1" margin in all sides. The right margins should be justified.

Materials and Methods

This section provides the procedures used in the research study or the experiment by which a study's validity is judged. This section includes the description of the study sites and the precise locations (latitude, longitude, maps - for field/ecological studies), participants / subjects, research design, procedures for collecting data and the qualitative analyses and / or statistical procedures.

Please use 12-point Times New Roman font with 1" margin in all sides. The right margins should be justified.

Captions for figures (maps) should be Times New Roman 11-point bold. They should be numbered (e.g., "Figure 1"), please note that the word for Figure is spelled out. Figure's captions should be written beneath the image or picture.

The heading of subsections should be in Times New Roman 12-point bold, italicized with only the initial letters capitalized.

Results and Discussion

This section objectively presents the key results with corresponding discussion, analysis or interpretation, in an orderly and logical sequence using both text and illustrative materials (Tables and Figures). The results section always begins with text, reporting the key results and referring to figures and tables as one proceeds.

Please use 12-point Times New Roman font with 1" margin on all sides. The right margins should be justified.

Captions for Tables and Figures should be Times New Roman 11-point bold. They should be numbered (e.g., "Table 1" or "Figure 1"), please note that the word for Table and Figure are spelled out. Figure's captions should be written beneath the image or picture, and Table captions should be written above the table body.

The heading of subsections should be in Times New Roman 12-point bold, italicized with only the initial letters capitalized.

Conclusion and Recommendations

Please use a 12-point Times New Roman font with 1" margin in all sides. The right margins should be justified. Conclusions and recommendations should be in paragraph form and should not be numbered.

Acknowledgment

This section recognizes the people who have helped for the completion of the study and what they did. The substantial sources of funding for the research or project should be acknowledged in this section.

Please use the 11-point Times New Roman font with 1” margin in all sides. The right margins should be justified.

Literature Cited

This section presents all the literatures and references that were used and cited. Papers are to follow the APA (American Psychological Association) style for formatting the literature cited / references. If possible, at least 80% of the literatures and references should be taken from journals covered by Thomson Reuters, Scopus Elsevier, journals indexed by other International databases, or books having ISBN code.
